TROOPS BATTER DOWN DOORS OF FRISCO RICH

TO SHELTER HOMELESS WOMEN
AND CHILDREN SUFFERING
IN THE PARK.

EXPOSED IN COLD WIND AND RAIN

Refugees Continue To Leave City:
An Indiana Postoffice Was
Robbed Today.

San Francisco, April 28—Special to The Telegraph—The bitterly cold weather following the heavy rains of Thursday is causing much suffering in the refugee camps here and in Oakland. A strong wind adds to the discomfort of the unfortunates in the open camps.

The militia are opening the houses on the edge of Golden Gate park to shelter the homeless women and children.

The force of the wind is such as to wreck many of the camps, exposing women and little ones to the severe cold. Many have insufficient blankets to keep warm.

The milk supply is running short and it is now only given to those who have children. Hundreds are obliged to take coffee without sugar or milk. Other food is plentiful for all. The exodus of the homeless continues and many relief seekers are already gone.

Large numbers of male sufferers are obtaining temporary employment in the stores reopening in all parts of the town.

CONTAGIOUS DISEASES ARE RARE IN THE CAMPS

San Francisco, April 28—Special to The Telegraph—General Funston indignantly denies the reports of an epidemic of contagious diseases in the camps or hospitals. Cases are very rare.

Supplies continue arriving in huge quantities.

Clothing, bedding and blankets are being distributed today liberally in all camps and houses sheltering victims.

Owing to the prevailing cold the soldiers are busy most of the time making coffee for constant distribution among the refugees to keep them warm.

Commercial freight is now being given a chance to get into the city along with relief supplies enabling merchants to open temporary stores.

POSTOFFICE SAFE ROBBED.

Avilla, Ind., April 28—Special to The Telegraph—The safe of the postoffice here was blown open by robbers early this morning. \$600 in cash and stamps was taken.

WILL PRESENT PLAY.

The Senior class of the South Side High school will present the famous and always attractive play by Shakespeare, "A Midsummer Night's Dream," at the opera house May 25, instead of at the regular class day exercises.

Those who will assist in the presentation of the play are rehearsing under the direction of Mrs. Maude McLean Stevens and are making good progress under her instruction.

The proceeds of the social given by the Senior class last night at the school house will be used towards defraying the expenses of producing the play.

CONCERT IN AMBOY.

The concert given last evening at the opera house in Amboy by the Amboy orchestra was a successful affair and was well patronized. Waiter Aschenbrenner, director of the orchestra, is only sixteen years of age but is a musician of much prominence in Lee county. Miss Belle Floto, choir leader of the Dixon Methodist church, sang two solos which were well executed and highly appreciated.

Progressive Game of Theft.

William Strube, a young man from Lilly Lake, who worked for a while as a night baggageman at the Northwestern depot, Geneva, first stole Cad Mead's collie dog which he disposed of to a farmer named Cook, living northwest of Lilly Lake. He then returned to Geneva. It is charged, ran away with the wife of the day baggageman, Brophy, at whose home he boarded while working at the county seat. It is believed the couple are in Chicago.

GRATIFYING REPORT RECEIVED OF DIXON MILK FACTORY

BOARD OF SUPERVISORS WILL SELECT CHAIRMAN

Meet Monday For Organization—Two
Prominent Candidates For
the Office.

The Lee county board of supervisors will convene in the court house Tuesday afternoon, May 1, at two o'clock, for the purpose of organization. A chairman will be elected for one year.

Just which member will be so honored is yet a conundrum. Two have been prominently mentioned for the chairmanship; they are Supervisors John M. Trostle of Ashton and Frank E. Rogers of Wyoming. The strength of each is problematical. The present time all things look favorable to Mr. Trostle. However, Rogers' strength has not been fairly measured. Both are good men and either one would make a first class chairman of the board.

M. W. A. WILL HOLD MAMMOTH PICNIC

IN FREEPORT JUNE 17 UNDER
AUSPICES OF THE WOODMAN
PICNIC ASSOCIATION.

EX-GOVERNOR VAN SANT ORATOR

Dixon Camp May Attend In a Body
Or Have a Local Up-River
Picnic.

The Northern Illinois and Southern Wisconsin Picnic association of the Modern Woodmen of America is making arrangements to hold a mammoth picnic at Freeport June 7th, to which all camps of the order are invited.

Ex-Governor Van Zant of Minnesota has been secured as the principal orator of the day and several prominent men who belong to the order will also address the meeting. Prizes will be given to the tallest and heaviest Woodmen who attend the picnic.

Each camp is invited to bring a band and a prize will be given to the best one present. Prizes will also be given for the best Royal Neighbor and Forrester drills.

Arrangements are being made to have one of the largest and most splendid parades ever seen in Freeport.

Many camps from all over the district embraced have signified their intentions of attending the jollification, and altogether it promises to be the largest meeting ever held by the M. W. A.

The Dixon camp has not yet decided to attend in a body, but the question of attending will be decided at the next regular meeting, at which a delegation will be present from Freeport.

Many members of the Dixon camp of Woodmen are more in favor of holding a picnic up Rock river by themselves than going to Freeport, and this may be done.

WITH RINGLING CIRCUS.

Roy, the youngest son of Mr. and Mrs. F. E. Self of Highland avenue, has accepted a position in the blacksmith department of Ringling Bros.' great shows.

Roy is a careful and skilful mechanic and a bright young man and his friends are pleased to hear of his success. He joined the circus in Chicago. Today the shows exhibit at Danville, Ill., and tomorrow they will be at Terre Haute, Ind.

Grafton, another son, has been with Ringlings several seasons.

Ban On Football.

At a meeting of the trustees of the Elgin Academy yesterday it was voted to abolish football for two years. The academy is a branch of Northwestern University and their move in abolishing the game is only following in the footsteps of the university itself. The academy has always had a fast team and vied with the Elgin and Aurora High schools for the football honors of that vicinity.

County Clerk Wm. C. Thompson and Assistant State's Attorney Harry Edwards were in Amboy yesterday on business.

STATE PURE FOOD COMMISSION- ER SPEAKS IN THE HIGH- EST TERMS.

PAYS DESERVED COMPLEMENTS

Superintendent Weed Congratulated
By State Officers For Sanitation
of the Borden Factory.

The sixth annual report of Alfred H. Jones, state pure food commissioner of Illinois, for the year 1905, was received today. The report is an exhaustive one, containing 443 pages.

With reference to the milk supply of the state, the commissioner has the following to say about the management of the plant located in this city:

"The Borden Condensed Milk plant at Dixon, Illinois, was inspected by Assistant Commissioner R. M. Patterson and Inspector Frank Hoey in the month of December, 1905. We called upon Mr. G. M. Weed, superintendent of this plant, and we especially desire to thank him for his kindness and courtesy in showing us through the entire institution.

We wish to say that the sanitary condition, cleanliness and general appearance of this great plant went far beyond our expectations, and the superintendent who has this plant in charge we especially desire to congratulate for his astute and energetic manner in keeping this condenser in an up-to-date, sanitary manner.

We desire to congratulate the Borden people for having such an astute and exceptionally good man in charge of this institution, which is demonstrated by an inspection of the plant, showing its especially clean and sanitary condition."

The report also contains a fine cut of an inside view of the caramel factory. The faces of many of the employees are clear and distinct. There is a full-page cut of the front view of the mammoth plant; also a full-page cut showing employees in the act of filling the cans with condensed milk.

The commissioner's report of the caramel factory is as follows:

"In connection with the plant, a caramel factory that is devoted entirely to the manufacture of first-class, machine-wrapped caramels. In this department sixty persons are constantly engaged, turning out from two to twelve tons of caramels every day, that are shipped not only throughout the United States, but foreign ports—China, Japan, Philippine Islands, Cuba and South Africa are steadily increasing consumers."

Baseball Notes.

The baseball game which was to have been played in Franklin Grove this afternoon between the South Side High school and the Franklin Grove teams, has been postponed on account of a previous engagement having been made by the Franklin Grove team.

Next Saturday the South Side team will play the Freeport team at Athletic park, if nothing happens to prevent.

A game is also scheduled with the DeKalb team, the date for which has not been decided.

They will also play two more with the North Side High school team. Prof. Glenn E. True is proving himself to be a good coach and manager, and the team expects to win some honorable victories this season.

New Fountain Installed.

Walter Missman has installed a new soda fountain in his confectionary store on First street and is now prepared to serve all kinds of drinks to his customers.

Attorney John Erwin is better today.

Mrs. H. V. Becker and daughter of Chicago are the guests of Mr. and Mrs. Levi on East Third street.

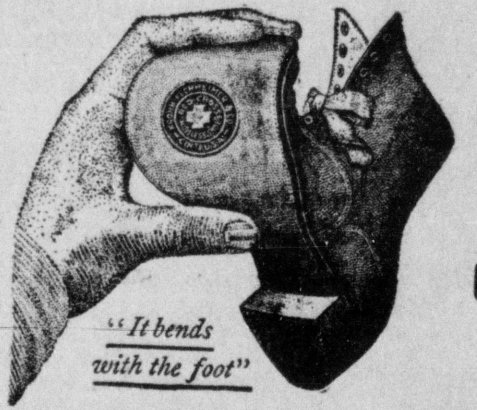

Miss Ruth Blanchard of Chicago is here and will make an extended visit at the Samuel Watson home.

Miss Katherine and Frank Herman of Mendota are here visiting at the home of their sister, Mrs. Ralph Joynt, on Highland avenue.

Will Godfrey is able to be out after a severe attack of typhoid fever. He expects to soon resume his position with the Texas Bill Wild West show.

RESOLUTIONS OF MINISTERS.
To the Dixon Evening Telegraph:

At a meeting of the Dixon Ministerial association, held yesterday afternoon, the following resolution was offered and unanimously adopted:

"Resolved, that this association most heartily endorses the article of Rev. J. F. Newton in his defense of Rev. C. C. McLean, and that we ask The Telegraph and Star to publish the same."

W. A. BILLINGS, Secretary.

Rev. Newton's Article.
In behalf of common justice I wish to resent the abuse heaped upon Dr. C. C. McLean, of the Methodist church. The people believe in fair play, and I for one of his associates, intend to see that Dr. McLean has fair play.

As a matter of plain, simple fact, Dr. McLean did not attack the character or impugn the motives of Judge R. S. Farrand or his court. All he did was to read in his pulpit a copy of the testimony in the case, as taken down by the court reporter, that the people might know why the case was thrown out. The following affidavit speaks for itself:

State of Illinois, Lee County, ss.

Charles C. McLean being duly sworn on his oath deposes and says that he did not at any time, publicly or privately, attack or impugn the motive of Judge R. S. Farrand or his court.

SUBSCRIBED AND SWORN to before me this 25th day of April, 1906.

JOHN B. CRABTREE,
Notary Public.

It seems to me this statement should put an end to the effort to discredit Dr. McLean for something he did not do. To attempt to create prejudice against him in this way is unjust to the last degree.

And it is also unjust to drag him through the mire of party politics. He is a republican, as was his father before him, and has always voted the ticket of that party; and it is untrue to say that he is being used as a tool by any man or set of men.

The work of getting evidence was started before Dr. McLean came to this city. He did not start the movement, but fell in with it and took part in it when he learned what it was. He was put on the committee without his knowing it, but when the duty was laid upon him he tried to perform it with persistence and enthusiasm. He worked hard and deserves high credit.

Dr. McLean is not the Law and Order league. What we say in our pulpits we say on our own account and are responsible for it ourselves. The league can speak for itself.

I wish to say that I know Dr. McLean has acted like a man through a trying ordeal, and I want him to have just and fair treatment by men and papers of this city. I say these things of my own accord, in behalf of a good man and a square deal.

STOP DRINKING!

Orrine Will Destroy All Desire for Whiskey or Beer—A Guaranteed Cure.

Nearly every drinking man thinks that sometime he will quit. He often swears off, but can not resist the craving for drink; and the disease, for this is what it really is, becomes so firmly fixed that it cannot be cured without medical treatment.

A Michigan druggist, H. G. Coleman, has made a thorough study of the various cures for the liquor habit and gives this as a result of his investigations: "Before taking the agency of Orrine, I went to considerable trouble to learn about it and became confident that it was a thoroughly honest preparation and put out by an honorable firm. I have sold it for years and can truthfully say that my confidence in it grows stronger the more I see of its results. I believe that any man who really desires to be cured of the liquor habit can cure himself with the help of Orrine and be rid of the bad effects which the habit has upon himself and family."

Orrine is in two forms, No. 1, the secret remedy which can be given without the knowledge of the patient; No. 2 for those who take the remedy for their own free will. A cure is absolutely guaranteed with either form of treatment. Write for free pamphlet on the cure of alcoholism to the Orrine Co., Washington, D. C. In every box is a registered guarantee which entitles you to a refund of your money if Orrine fails to effect a cure. The price either form is \$1 a box.

CHAPTER XXIII.

HE doctor bustled himself with some medical implements, while my master remained perfectly quiet, staring gloomily and abstractedly at the fire.

In about five minutes the former seemed to have found what he wanted and said:

"Now, if you will take a seat in the chair, Charles, I will hurry up, so you can return home early and have a good sleep. It is rather late now—after 11."

He looked at his watch as he spoke, and my master took a seat in a large, comfortable operating chair. He threw himself back into it and closed his eyes for a moment.

"Now, Charles, look at me and yield yourself to my influence," Dr. Squires said. "Remain in as passive a condition as possible."

My master sat up and looked dreamily at the man, while the doctor slowly made passes before his eyes.

He was hypnotizing him not against his will, but with his full consent. Miss Stetson breathed hard and with difficulty restrained a scream. I placed a warning hand on her arm. She controlled herself with marvelous power and waited patiently for further developments.

In a few moments my master was reduced to a perfectly helpless condition. He was merely an automaton obeying the will of Dr. Squires. The latter smiled quietly to himself.

"Now, Charles, you do not remember any of your past life, do you?" he asked.

"No. Only the present."

"You feel tired and weary, don't you?"

"Yes; very tired."

"Well, rouse yourself and do my bidding with alacrity."

"Certainly. What is it? I feel fresh enough for anything."

"I thought so."

Then after a short pause:

"I want you to be as shrewd and alert as possible tonight, for I have a very difficult mission for you. You know the large mansion on the main road just as you turn off from Gates avenue?"

My master nodded.

"Well, that house is occupied by Dr. Chalmers, a rich old fogey, who has plenty of valuable articles in the mansion. I want you to go there and bring back to me all that you can collect. You must then go down the main highway until you reach the house with two elm trees in front of it. Open the front door with a key you will find in your pocket. Enter it and go into the first bedroom on the right on the upper landing, undress yourself and go to bed. Sleep there until morning, and when you awake you will remember nothing of tonight's proceedings."

Again my master bowed his assent and waited for further instructions.

"Here are your pistol and dark lantern," the doctor continued, bringing out from a secret drawer in his desk the two articles mentioned.

"I want to caution you particularly tonight," he added. "The house is well protected. There are a burglar alarm, a watchdog and several manservants in the house. You must be extremely careful or you will be caught. Now, do you understand all?"

"Yes, I understand."

He made a movement as if to pick up the pistol from the desk, but I felt that my time had come, and I stepped quickly out of the closet and seized the weapon. Before Dr. Squires could recover from his surprise I had him covered with my own pistol, while the other one was pointed at my master. I did not know what the latter might attempt to do in his hypnotic state.

"You are caught, doctor," I said as calmly as possible under the circumstances. "Do not attempt to move or I will shoot you dead."

The swarthy faced paled a trifle, and then his eyes wandered toward my master. I saw his intention immediately.

"If you order him to help you, I will shoot you first and then disarm him," I said. "You are the one I'm after, and I shall have you or kill you."

He had not spoken, but I knew that his alert mind was active. I decided to cover him into submission if possible.

"I'm not alone here tonight," I added a moment later. "The house is surrounded. Your servant is a prisoner, and I have help behind me."

Mr. Jaimson and Miss Stetson stepped from their hiding place. The doctor uttered a hasty exclamation which never took the form of distinct words. He realized that it was impossible to deny his crime. There were three witnesses to testify against him.

"Well, I guess the game is up," he finally muttered.

A look of disgust and hatred entered his face.

"I had a suspicion from the first that you might be a detective in disguise," he said, scowling at me.

"You should have acted on that suspicion earlier," I replied, returning his scowl with a smile.

"Yes, but we are young yet, and we may meet again."

OAKLAND IS THRIFTY

She Seems to Have at Least One Eye Out for the Main Chance.

GIVES SAN FRANCISCO A JAR

Makes a Bid for the Location of the Wholesale Houses.

COUNTER MOVE IS IN EXECUTION

More Facilities Offered the Wholesalers—Retail Business Also to Have a Better Show—Salesmen Shocked Again.

Los Angeles, April 28.—A long-distance telephone message to this city from a correspondent of the Associated Press at Salinas, 120 miles south of San Francisco, states that three more very heavy earthquake shocks were felt there Thursday night, one at 8 o'clock, another at 9:50 and the last at 2 o'clock a. m. The shocks lasted about four seconds each, but so far as known did no damage.

San Francisco, April 28.—The question of the resumption of wholesale business in San Francisco was taken up at the meeting of the citizens' general committee yesterday. Thomas McGee said that wholesalers in large numbers were settling in Oakland, and that there was great danger that this settlement might be permanent, those who applied for locations there being required to take out leases extending through five years. The mayor said this movement must be stopped at all hazards, and that every facility must be afforded wholesalers to open temporary quarters in San Francisco. The only limitation placed by the authorities was that the buildings should be no more than one story in height. The erection of permanent buildings must await the framing of the new building laws.

Matter of Retail Business.

EX-CHIEF of Police Wittman, of the committee on resumption of business, said there were now some 300 retail stores of various descriptions in operation in San Francisco. The matter of obtaining stocks for these stores was still a serious one. Traffic Freight Manager Sproule, of the Southern Pacific, had informed him that 1,250 loaded cars now stood in the yards of the Southern Pacific, but he was also informed that the unwillingness of some of the warehouses to open their doors for the delivery of goods was due to the fear of further military confiscations. Mayor Schmitz informed him that General Greely had issued an order that there should be no further confiscations under any circumstances.

Relief Received at Frisco.

Chairman Phelan, of the finance committee of the relief and Red Cross funds, gave out a complete statement of money contributions received for the relief of San Francisco up to and including April 26. The list shows the grand total of \$4,831,038, of which \$213,950 was contributed locally.

FIRST ELECTRIC CAR APPEARS

Run Is Made an Event, Mayor Handling the Lever.

The reappearance of the first electric cars upon the streets of San Francisco since the great disaster was celebrated as quite an event. City and railroad officials and invited guests filled the first car started on the run across the city, Mayor Schmitz acting as motor-man. Everywhere the sight of the car was greeted with cheers from thousands of pedestrians. A continuous service was re-established later in the day on several of the cross-town lines, and thousands of people were carried free of charge.

The first building permit applied for and granted was for a twelve-story steel structure to be erected by Thos. McGee. This is one of the first substantial evidences that the business men of San Francisco intend losing no time in getting down to business.

What to do with the Chinese of San Francisco, a problem which gave the authorities considerable worry during the last few days, has been settled, at least temporarily. They will be moved temporarily to a large open tract of land in the Presidio reservation and will find a resting place until arrangements can be definitely made for their permanent city at Hunter's Point, a most desirable spot on the southern arm of the San Francisco bay.

The water front is as busy as ever. From the Pacific mail dock to Melggs' wharf the docks and wharves look as they did before the fire. The work of the customs and quarantine officers has not been interrupted for a day. The transport Sherman arrived here Thursday. After passing quarantine she went up to Folsom street and docked at the army dock as usual, and her passengers from Manila and Honolulu landed there.

WIND BLOWS DOWN WALLS

Sight-Seers Have Narrow Escapes—Relic-Hunting Is Profitable.

San Francisco, April 28.—The strong wind that blew over the city Thursday afternoon and yesterday morning carried to the ground a number of blank

walls that had been left standing. The falling of these walls was an element of danger to the great number of people who crowded into the city to view the ruins. The walls of the building at the northeast corner of Stockton and Sutter streets, immediately behind the Pacific Union club, fell with a terrible crash. A number of pedestrians and a party of men and women in an automobile had difficulty in getting out of the way of the shower of bricks.

The outer wall of the building at the corner of Market and Geary streets, where was once the Richelleu saloon, fell outward just as hundreds of people from the Oakland ferry boat were wending their way along Market street. Several persons were struck by the scattering bricks, but no one was seriously injured.

Relic-hunters are reaping a harvest digging among the ruins of the Japanese and Chinese bazaar stores, particularly in the district formerly inhabited by the Chinese. Hundreds of persons from across the bay have visited these ruins, where assiduous stirring of ashes yields profits that are more than worth the labor. Vases of Satsuma, and Cloisonne ware, brasses, bronze ornaments that in the days before the fire commanded high prices, are being carried away by the relic hunters in large numbers. Six-shooters of the kind formerly carried by the hired assassins of the Chinese district are being found in great quantity.

OVER 1,100 WOUNDED

Gen. Greely So Figures—List of Additional Dead.

Washington, April 28.—In obedience to instructions from the war department General Greely has submitted a list of persons injured in the earthquake and fire at San Francisco. The list contains about 300 names, and they are represented as seriously injured—some permanently disabled. Besides these General Greely says there are 871 slightly injured, of whom he has the names of about 600.

He also sends the following thirty-five additional names of dead not previously reported, which probably include some previously reported as unknown: Andy Andrews, Boss Butler, Frank Burger, Frank Borchers, Margaret Bullard, Sarah Clarton, John Earlier, Mamie Foley, Sarah Hansen, William S. Hansen, Marcus Isaac, Annie Kelly, John Kerr, James Morris King, Gerald Kirkpatrick, Charley Lenderon, John Manning, George Manning, Louis Matoll, Henry McGill, Jane Merkle, Doe Merkle (baby boy), Markle (baby girl), George Nichols, John D. Pearson, Benjamin Schartau, Mrs. Shaw, Spain (two sons), Jerry W. Stanford, Mrs. Steel, F. Sziraky, — Sanford; John Tinson, Nathan Vancouver.

General Greely in insisting that the dead do not reach the aggregate alleged by the coroner, says: "It is practically certain that the dead in the Valencia hotel did not exceed twenty-five. Instead of seventy previously estimated. Summarizing, there have been reported 200 names of dead, while there are 147 reported unknown, of whom doubtless a number are among those identified later and reported by name."

Two Chicagoans Safe.

Monterey, Cal., April 28. — Thomas Murdoch and Miss Murdoch, his niece, of Chicago, who were in San Francisco at the time of the earthquake and fire, succeeded after many tribulations in reaching this city, where they are now safe and sound.

Senate and House in Brief.

Washington, April 28. — Spooner completed his speech in the senate on the rate bill, speaking for two hours, and further pressing his point that though congress could take jurisdiction from a court it could not take its power, while permitting it to retain jurisdiction—nor part of its power. All the private bills on the calendar were passed, and an executive session was held.

The house passed a bill appropriating \$170,000 for the employment on government works of labor at San Francisco; also 315 pension bills. Williams of Mississippi began a speech on the tariff.

Winder's Coal Mine Report.

Columbus, O., April 28. — Chairman John H. Winder, of the operators of Ohio, Indiana and Illinois, has given out reports that he had received from the executive officers of the operators' association in Ohio, Indiana and Illinois. The report shows that 15 per cent. of the possible tonnage of the state of Ohio is at work, 6 per cent. in Indiana and 7 per cent. in Illinois. He said that the price of coal is now decreasing.

Russian Elections All One Way.

St. Petersburg, April 28.—The second group of provincial conventions, seventeen in number, and all the municipal conventions, which number twenty, have been held. The Constitutional Democrats have undoubtedly carried the majority of the provincial conventions and have made practically a clear sweep in the cities.

Vitos Puzzle Picture No. 3—Solve it and Get a Watch

DIRECTIONS The picture above is made from the portraits of eight prominent American Authors. Each portrait has been cut apart. Cut out carefully and rearrange the pieces so as to show the eight portraits properly. Paste them neatly on a sheet of paper, and write the full name of each below the portrait, and mail to Vitos Dept. Pillsbury Washburn Co., Minneapolis, Minn., so it will reach us not later than 10 days after publication accompanied by the top from a two-pound package of Pillsbury's Best Breakfast Food—"VITOS," and a sentence of 25 words, telling why you like to eat PILLSBURY'S "VITOS." You can get VITOS from any first-class grocer. The watches will be forwarded each week by the Pillsbury-Washburn Co. to the successful solvers as soon as the solutions can be looked over. Your solution to secure a watch must be correct in every particular and must be accompanied by the top from a two-pound package of PILLSBURY'S "VITOS," and also by the descriptive sentence as set forth above—write your name and address plainly on your solution. If sent by a school child give age and name of school. The standing of the Pillsbury-Washburn Flour Mills Co., the manufacturers of this breakfast cereal, the largest flour and cereal concern in the world, is a guaranty of the high quality of these watches, and an absolute assurance that they will be distributed in good faith, exactly as advertised. Children can find who these authors are by asking their parents or teachers. There is no catch in the puzzle, it is comparatively easy of solution. Every correct solution gets a watch. A watch given to one member of a family only.

12 lbs. for 15c of Pillsbury's
Less than a pound for 10c of the ordinary dry cereals

Figure it out with us. A two-pound package of PILLSBURY'S BEST BREAKFAST FOOD—VITOS, which is the white heart of the wheat grain, costs 15c and makes 12 pounds of tasteful, healthful, nourishing food at a cost of **ONE AND ONE-QUARTER CENTS A POUND**. The ordinary ready cooked wheat food package contain about seven-eighths of a pound of finished food product and cost ten cents, or about **ELEVEN CENTS A POUND**, or eight times as much. In addition to this, VITOS takes much less cream or milk than the dry foods. That tells the "Economy Story." All the world knows that the name "Pillsbury" stands for the best and purest in food.

WHAT FOSTER THINKS.

I believe earthquakes to be the same as cloudbreaks, says Prof. Foster, the weather prophet. That is by the passage of electricity from one planet to another the same as the passing of electricity from one cloud to another causes thunder and lightning. A less number are caused by volcanic eruptions, the latter being caused by the burning of coal, oil and other inflammable substances, aided by steam. The interior of the earth is not hot and never was. All evidences of internal heat come from burning or extinct volcanoes and they are surface eruptions and do not come from the interior of the earth.

Johnny Thompson, Sycamore's pugilist, has a string of bouts booked since his defeating Seelof at New Orleans recently. May 2 he goes to LaSalle to meet Young Carroll and on the day after he will start for Los Angeles where he has a bout fixed with McCarty, said to be one of the fast ones in the west. Should he show up strong in these fights, Johnnie is promised a bout with Young Corbett some time in June.

Railroad Man Dead.

While at the office of Dr. R. A. Windett at Aurora, Melvin Tarble, a former West Aurora freight agent for the C. B. & Q., dropped dead on Wednesday afternoon about 3:15 o'clock. Mr. Tarble was taken sick while walking up River street. He walked up the stairs to the doctor's office without assistance and when he entered the door he gasped feebly and fell. The doctor applied restoratives, but without avail. Heart failure was undoubtedly the cause of death.

TWO SCORE YEARS AGO.

Local Happenings Found In Old Files of The Dixon Telegraph.

Perhaps there are a few readers of The Telegraph who recall a woman saloonkeeper of early days, and so we give an editorial which was written by the scribe nearly two score years ago. It is in regard to troubles the aforesaid woman had with a dishonest colored man. Here is the "local."

"A Nigger In the Fence."

One of the most interesting if not important cases upon the criminal docket at the late term of the Lee county circuit court, was the trial of a colored individual enjoying the peerless title of Alexander Watts, who was on "defence" for larceny. It seems that the grand jury had "believed from evidence" that Mr. Watts had "interviewed the till belonging to Mrs. Horn, a Teutoness," who presides over "zwei glass lager" and caters on Main street to the lovers of bologna and the appurtenances thereto belonging, for certain Dixon people.

Were we to judge from the crowd that assembled at the court house, and the time occupied by lawyers Eustace and Barge for the defense, and State's Attorney McCartney on the part of the people, who, in trying the case, discussed elaborately the questions involved in fifty years of American politics, besides other matters aesthetic and philosophical.

In summing up the case it seemed that the great questions, the first named heretofore supposed to have been settled; negro equality; superiority of the races; political science; evolution; descent of man; the Darwinian theory of creation versus orthodoxy; whether or not the negro was a man and brother, classed as superior or inferior race—these subjects all became involved through the genius of our legal talent (and also owing to the fact that Mack is a staunch republican and the attorneys for the defense are democrats) in the trial of Alexander Watts (colored) for the stealing of eighteen dollars from a female barkeeper. Eighteen dollars, it must be remembered, of hard earnings, is no insignificant sum for Mrs. Horn to be separated from, for indeed she is not a cornucopia.

Elizabeth Cady Stanton lectured Dec. 4 on Woman's Rights.

The great English orator, Justin McCarthy, lectured at Union hall.

The New Year marriages for the beginning of 1870, were: Wm. H. Mead and Miss Rose Prayor; Wm. Vann and Miss Theodicy Cuddington; Henry E. Miller and Miss Margaret Lavon; Jeremiah Glessner and Miss Ellen C. Ellisrode.

The civil engineers of the St. Louis, Rock Island, Dixon and Rockford railroad were in Dixon. One route was surveyed through Grand Detour.

The poisoning of "Curt" Morehouse by Dr. Marr, was under consideration in the circuit court. The doctor put poison in Curt's beer, but he survived.

Winter set in early in 1869, but in November, 1842, a snow storm swept over the country, and Rock river froze over November 16, so that people crossed on the ice; and the weather continued cold until April the following year.

The leading manufacturing establishments were the F. K. Orris Plow shops; Victor Scale factory; Godfrey & Charter's Knitting mill, and the Flour and Flax mills.

The Telegraph refers to a saloon on First street "belonging to Mrs. Horn, a Teutoness who presided over 'swei glass lager.'" In those days men did not have the monopoly in that line of trade in Dixon.

Hon. Henry Vincent of England lectured on Jan. 26.

The marriages of the week were David H. Glenn and Miss Cora C. Buck of Ashton; Philander Dola and Miss Rebecca More of Eldena; Lewis H. Burke and Miss Emily W. Mead of Dixon.

The amount of the tax levy of Lee county was a little over three and a half million dollars.

Judge Welty sold a seven-hundred-and-forty-pound porker from his Scottville farm.

[It is now suggested that his son Charles cannot do as well in the line of stock raising.]

The marriages for the week were: L. Smith Ayres and Miss Minerva

County Surveyor Wm. McMahan of Pawpaw was attended by Dr. Palmer, on account of the official's broken leg.

LITTLE AUTO ACCIDENT HAPPENED AT STERLING

Buggy Coming Out of Alley Struck By Machine and Overturned; Occupant Unhurt.

What might have been a fatal accident took place on Tuesday afternoon on Fifth street, in Sterling, where the alley enters from the north between Third and Fourth avenues. The venerable J. J. Miller, in a buggy to which was attached a rather restive horse, was in the act of driving out of the alley into Fourth street when a big automobile suddenly came upon him and in a twinkling the carriage was upon its side and the occupant was sprawling in the street. Fortunately there was an active man in the machine who was out and at the head of the horse before the surprised animal could get away. The buggy was righted after the occupant had been picked up and cared for. Strange to say Mr. Miller received no injuries from the fall aside from the shock, and was as though it had not happened. The owner of the auto did all in his power to make the matter right and there will be no trouble.

So far as is known there is no particular blame to be laid on the driver of the machine save that he should have had his vehicle within instant control when passing along the street.

GET A LINE ON A PROMINENT COMING EVENT

Some Pertinent Facts of More Than Passing Interest To the Pleasure Seekers.

It is true that the news of a circus coming to town is read and heard with more or less interest by everybody, and when its coming is preceded by reliable information that it is high class, clean and that its management fulfills every published promise made the public, then that interest is increased. The newspapers all over the state where the Gollmar Bros. Greatest of American shows have exhibited already this season speak in the highest terms of the establishment and say that without question their circus, museum, menagerie and hippodrome is the greatest amusement combination in the country today. In the menagerie they show a monster \$20,000 black African hippopotamus, a monster herd of trained elephants and 50 dens of rare wild animals. The circus performance they give comprises 100 original, novel and picturesque feature acts; the hippodrome shows 200 fine blooded horses and nearly 200 gentlemen and lady actors, and their free street parade is a veritable pageant of gold, glory and glitter. They have three great bands, a \$5,000 32-pipe callope, said to be the largest in the world, and give their exhibitions under a spread of water proof canvass which covers acres of ground. The greatest of American shows exhibits here Wednesday, May 2nd. 2 performances daily; doors open 1 and 7 p. m. See the big free street parade at 10 a. m.

MAYOR PROHIBITS SWEARING.

"Cuss" words don't go in New Richmond, Wis., any more. Mayor Hawkins has issued an order to the city marshal and force promptly to report all violations of the order. In inaugurating his crusade the executive issued the following order:

"Profanity must go. It is useless. It is sinful. It is blasphemous in the sight of God. It is abominable in the sight of man. If the profane man wants to wallow in the pollution of profanity, let him betake himself to the lumber camps—but he should remember that when he crosses the confines of civilization he should close that chapter of his dictionary."

WORK OF A FIEND.

A San Francisco refugee passed through this city yesterday bound for Chicago, where her parents reside, who said her name was Miss Logan. She wore a bandage on her left hand and said that while she lay unconscious on the floor of the lobby of the St. Francis hotel in San Francisco, after the earthquake Wednesday morning, the third finger of her left hand was cut off and she was robbed of rings she had worn there. Miss Logan, who is 20 years old, is almost prostrated with grief and indignation.

SENATE BILLS ARE DESTINED TO DEFEAT

HOUSE PREPARED TO KILL THE GALPIN AND MERRY PRIMARY BILLS.

UNLESS CAUCUS IS A SUCCESS

Yates Men May Lose Their Jobs Unless Governor Can Otherwise Accomplish Desires.

State officials who hold their positions by virtue of the compact existing between Governor Deneen and former Governor Yates may lose their jobs as the result of the legislative tangle brought about by the attempt of the state administration to pass a direct primary bill. Governor Deneen is now preparing to use the patronage of the state to win over recalcitrant members of the house and senate, and in doing so is planning to sacrifice appointees of former Governor Yates.

The Yates men are to be removed from office in order that places may be provided for constituents of the members of the house and senate whose support is needed by the governor in the present crisis.

Administration in Predicament.

The adjournment of the house yesterday found the state administration in a bad predicament as far as the primary bill was concerned. Although he has made every effort to win over the 33 members of the house who refused to attend the republican caucus, the governor has been able to do little in this direction. As far as can be learned the ranks of the republican insurgents remain unbroken and they will be absent from the caucus called for next Tuesday night, as they were from that held this Wednesday.

The house members are now preparing to kill the senate bills when they come before them Wednesday. The house at its session Friday morning advanced both the Galpin and Berry bills to second reading without debate. This action paves the way for a general discussion of the senate bills in the house when they are called up Wednesday after the republican caucus of Tuesday night.

Only Five Members at Session.

There were only five members of the house present at the session Friday morning in addition to Speaker Shurtleff. Three of them—Hearn, Manny and Comerford—were democrats, and two—Oglesby and Erby—republicans. Representative Oglesby was recognized by Speaker Shurtleff and moved that the two senate bills be advanced to second reading. The speaker asked if there were any objections to this action, and there being none the bills were advanced and the house adjourned.

Speaker Shurtleff has announced that it is his intention to allow a free discussion of the primary question in the house Wednesday unless seventy-seven members can be induced to attend the republican caucus on Tuesday night and agree to abide by its decision. If this can be done and a bill can be agreed upon at the republican house caucus the house will be held up until it can be drafted.

WOMAN BURNED TO DEATH.

After suffering indescribable pain for several hours, Mrs. John Seaton of Stephenson county, expired at 9:10 o'clock Tuesday night near Shirland, from the effects of burns received earlier in the evening.

The death of Mrs. Seaton is indeed sad. She spent the afternoon in cleaning up the yard at her home in Shirland township, midway between Shirland and Rockton. The dry grass and leaves were placed in a pile and a match applied to them. In some manner the dress of Mrs. Seaton was ignited and in a moment she was enveloped in flames. Losing presence of mind she ran through the house, and no assistance being found therein she dashed out and down the road to the home of her sister-in-law, a distance of about thirty rods, where she fell exhausted. The unfortunate woman presented a horrible aspect when she reached the latter residence. Her clothes were burned from her body, only one shoe remaining on her person, and her flesh was literally cooked. Mrs. Seaton did not lose consciousness for some time despite the terrible burns she suffered. Dr. Eakin was called and did all in his power to alleviate her sufferings, but it was to no avail. The incident occurred about five o'clock, and death ensued four hours later.

Mrs. Seaton was a member of an old and prominent Shirland family.

SHOWS KNOCKED OUT BY THE SUNDAY MEETINGS

Opera House At Princeton Has Been Closed and All Engagements Canceled.

All the shows for the remainder of the season at the Apollo opera house in Princeton have been canceled. Lack of patronage was the reason. The number book included "Old Arkansas" and other well known plays. During the Sunday meetings all the attractions were canceled and since the meetings closed the attendance has not been sufficient to justify the management in asking companies to come here and suffer a loss. The only two attractions remaining on the books are two moving picture shows. Both are considered to be of a high order and the patronage given them last fall would indicate that they will be well patronized this time. One of them will be given tomorrow night and the other one May 8.—Bureau County Republican.

ELGIN CASE NEXT WEEK.

The Ogle county circuit court is now in session and during its course Samuel Elgin of Sterling, Whiteside county, will be tried on the charge of arson, for which an indictment was returned against him at the session of the January jury.

The grand jury for this term of court was discharged Thursday morning and the court will take up the trials of several minor cases, after which the case of Elgin will come up for trial, probably next Wednesday.

Elgin was indicted by the October grand jury on the charge of arson, alleged to have set fire to his creamery near Polo, Friday night, July 28, 1905. His attorneys, however, secured a squasnal of the indictment on technicalities and the January grand jury found another true bill.

CHILD NEARLY DROWNED.

The four-year-old daughter of Mr. and Mrs. Houser, formerly residents of Ohio, but now of Mendota, had a narrow escape from drowning a few days ago.

Her mother was doing the weekly washing and left the cistern open after drawing some water. The child was playing nearby and fell in. The mother called for the little one, but received no answer. She started out to look for the baby and finally glanced down into the cistern and saw the child. By hard work she was rescued and then neighbors called and helped to bring the child to life by rolling it over a five gallon oil can. The child had been in the cistern ten minutes.

MEN'S MEETING TOMORROW.

All men are cordially invited to attend the Y. M. C. A. meeting, to be held Sunday afternoon at 3:30 o'clock, at the Lutheran church.

George Ponken, secretary of the Sterling Y. M. C. A., will be the speaker for the occasion and the Y. M. C. A. Glee club of twelve voices, from the same city, has also consented to be present at the meeting and render several selections. A good entertainment is promised and the attendance should be large.

Hoe Used By Mexicans.

In Rowland Bros.' window is a large, old-fashioned hoe which was brought from Mexico City, Mexico, several years ago by a resident of Dixon.

A letter received from Carl Lennon by his father states that he is spending a few days at the Galt House, in Louisville, Ky.

EGYPTIAN CIVILIZATION.

Its Origin One of the Unsolved Enigmas of the World.

The origin of Egyptian civilization has been the enigma of the world for the past twenty-five centuries. Presenting no historic or even mythic infancy, it appears before the world at once as a highly civilized and organic community centuries before Moses was a boy. Upon this subject Renan says, "Egypt has no archaic epoch, but suddenly takes its place in the world in all its matchless magnificence, without father and without mother and as clean apart from all evolution as if it had dropped from the unknown heavens." Would not an explanation at least feasible be found in the hypothesis that it received its civilization from some source no longer existing? Menes, the first historic figure in its long line of dynasties, the outlines of whose personality loom up waveringly indefinite but grandly impressive against the deep mythic background of prehistoric story at least 4500 B. C., conceived and executed enterprises extorting the warmest admiration from the best engineers of the twentieth century. Did he not alter the course of the Nile by vast embankments to gain stable foundations other than in shifting sands for his sacred city of Memphis and construct the artificial lake of Moeris, 450 miles in circumference and 350 feet deep, as a reservoir for the waters of the Nile?

Look, too, at the colossal achievements of his successors in architecture, sculpture, engineering, astronomical, political, medical, social and military science, to say nothing of navigation and theology. Witness the ruins of the Labyrinth recorded by Herodotus, which had 3,000 chambers, half of them above ground and half below, a combination of courts, chambers, colonnades, statues and pyramids. Witness the wonders of the magnificent temple of Karnak, which still awakens our admiration, a temple, as Dixon says, wherein the Cathedral of Notre Dame in Paris could be set inside one of its halls and yet not touch the walls. Witness the sublime pyramids originally built in honor of the sun god Ra and for use as astronomical observatories, the splendors of Memphis, Thebes and Hieropolis, of the sphinx and the obelisks, the statuary and the numerous temples with the ruins of which the land is still filled.—Exchange.

DON'T GODDLE YOURSELF.

Faithfulness About Health Does More Harm Than Good.

When one thinks of the newfangled ideas about health and sees people on every hand hunting for disease germs in water, milk, meat, fruit and the atmosphere, analyzing everything, dreading swallowing and in constant fear with every mouthful they eat, one almost wonders whether or not life is worth living. If we are liable to be made the victims of tens of thousands of enemies which are in and around everything, in all liquids and all solids alike, we are in just about the same condition to enjoy life as was one of the olden kings who lived in mortal terror that everybody was trying to poison him. All his foods and drinks, everything, had to be tasted and tested by some trusted member of his household before he dared to touch it himself.

If there is a pitiful object in the world it is a person who has become finical about his health, who lives in terror of germs and must examine and analyze everything he eats or drinks, looking for infection.

It is an insult to one's Creator to go through life whining, complaining and fearing, in morbid terror that a thousand enemies are combined to rob one of comfort, of happiness and of health. Man was made to hold up his head, to walk erect, with boldness, fearlessness and confidence.—Success.

WITNESSED EXODUS FROM STRICKEN CITY

MRS. C. BEST AND MRS. JOHN MOSELEY HOME FROM SANTA ROSA.

CHARITY AT THE WAY STATIONS

People Give San Francisco Sufferers Food and Clothing as They Hurry East.

Mrs. C. Best and her daughter, Mrs. John Moseley, arrived here this morning at 5 o'clock from Santa Rosa, California, Mrs. Moseley having spent the winter there with her mother. Mrs. Best, who has been making her home on the coast, will not return. They left Oakland at 6 o'clock Monday evening, and on the same train were over 300 tourists who were hurrying homeward from the ruined city, San Francisco. The people were entirely destitute and traveling free of charge. Some of them were in a pitiful condition. At every place where the train stopped for meals these people were fed by the public.

At several places large tents were erected for the purpose of feeding the helpless. Clothing was distributed to the people enroute. All along the line the people were very kind to the grief stricken.

No one but doctors and Red Cross nurses are permitted to enter San Francisco, and people are leaving on every train.

The city of Santa Rosa, Mrs. Best's home, was terribly shaken. Many buildings were completely destroyed by fire. In all, 100 people were killed, 30 were killed in one hotel.

The shock came at 5 o'clock in the morning. In Mrs. Best's home all the dishes were broken, the pictures were all thrown from the walls and the plastering was shaken from the ceiling and walls. Every chimney in the city was shaken down.

Many of the citizens of Santa Rosa are now living in tents, being afraid to enter their homes, fearing another earthquake.

A nursery near Santa Rosa sunk four feet.

Burton Family Safe.

Mrs. T. H. Burton, a sister of Mrs. Moseley, living in San Francisco, writes that she and her family are safe, but homeless. When the family left the ruined home, fleeing to a place of safety, her two little girls were tied together with a rope to keep them from getting lost in the mad rush of people running from the fallen homes.

SUNDAY CLOSING MEETINGS AT AUSTIN, MINNESOTA

Much Opposition to Evangelist is Overcome and List of Converts Runs High.

Austin, Minn., April 27.—The Sunday meetings that have been the theme of conversation in Austin and vicinity for the past five weeks have passed into history, and such a history. When Sunday came to Austin five weeks ago he was the most vilified man that has lived since the days of Christ.

Austin needed Sunday. Austin feared Sunday, and Austin fought Sunday to the last ditch. But Sunday with God's power behind him was too much for Austin. Sunday came. He threw down the gauntlet of defiance and cast in their teeth the lies they had been peddling about him. They rebelled; he fought; he prayed; he reasoned and he pleaded with them and they, they got madder; they refused to come and hear him; they cursed and swore as they backed to the wall, but it was of no avail. Sunday with the God that bore him up was too much for their puny efforts. They succumbed to the inevitable with the magnanimity that is characteristic of Austin in all that she does.

The break started at the close of Saturday night's service when the invitation was given, and from then until the closing scene of last night it was one continuous surrender, a complete capitulation of the cohorts of sin to the church of God.

The thank offering: That too was a revelation. The most that it was thought possible to get was \$2,000. The raising of that money for Mr. Sunday was in charge of Mr. F. P. McBride, one of Mr. Sunday's opponents when he first came. He acknowledged his error and said he wanted to pay for his folly. So he gave \$10 and paid a fine of \$10. There were several others who did likewise. Four gave \$50 each at the morning services. The total of the day was \$2,300.

J. U. Weyant was in Nachusa on business yesterday.

Rev. William A. Sunday, the evangelist, opens a series of meetings at Freeport this evening.

Route No. 8.

Carrier, George Oakley; route lies south of Dixon; number of miles traveled daily, 24 1-2; number of houses delivered to daily, 108.

Changes to be made are as follows: Will go south on Peoria road to Burk's corner, east from there 1 mile, south 1-2 mile to Walton postoffice, north 3 miles to Rizener's corner, retrace 1 mile to O'Malley's corner and east 1 1-2 miles to Hutchinson's corner.

The changes in Route No. 6 will be made public as soon as decided upon.

Prof. DeLong will sing at the service of the People's church to be held in Maccabee hall Sunday afternoon at 4:30 o'clock. Rev. Newton will preach.

The South Dixon Musical society met last night at the home of Miss Grace Rhodes in South Dixon. A good program was rendered and the evening was very pleasantly spent.

SOCIAL HAPPENINGS

PAST AND PROSPECTIVE

The Peoria Avenue Reading club will meet with Mrs. Bacharach Monday afternoon at 2:30 o'clock.

Mrs. A. F. Moore entertained the Dickens club at her bluff park home Friday afternoon, with a scramble tea.

A meeting of the Young Ladies' Sodality will be held tomorrow morning at St. Patrick's church after 8 o'clock mass.

The Wednesday Euchre club has changed their meeting day to Monday, and on Monday they and gentlemen friends will have a picnic supper at the home of Dr. and Mrs. Owens.

Sunday School Rally.

The Sunday school of the Christian church will observe "General Rally Day" Sunday morning. All the members of the Sunday school and their friends are asked to be present.

The orchestra of the North Dixon school will give a concert Monday evening, April 30, in the assembly room of the school. The program will consist of selections by the orchestra, vocal and instrumental solos, duets, etc.

Daughters of Isabelle.

The Daughters of Isabelle will hold their regular meeting Monday night April 30, at the K. of C. hall. All members are requested to be present.

The social given at the South Side High school last night by the Senior class was a success both financially and socially. The attendance was large but the supply of ice cream and cake was larger, so every one was satisfied.

Phidians Will Elect.

The next regular meeting of the Phidian Art club will be held Tuesday afternoon at the home of Miss Adella Pinckney, 520 Peoria avenue. At this meeting the annual election of officers will be held. A brief program will include music and the presentation of current events by Miss Woodbridge and Miss Raymond.

Daughters Give Social.

The Daughters of Isabelle held a pleasant social last evening in the Knights of Columbus hall. There were several candidates for initiation, but on account of Rev. Father Fegers, of Sterling, who was to do the work, being unable to be present the work was continued until the next regular meeting. However, a brief program was given and ice cream and cake were served. A number of the Knights of Columbus members were present.

Story of the Reformation.

Rehearsals for the Story of the Reformation are progressing rapidly. The entertainment will be given in the Dixon opera house Thursday and Friday, May 3 and 4, under the auspices of St. Paul's Lutheran church. Following is a synopsis of the entertainment:

I. Allegorical Processional. Theology entering the Union.

II. Illustrated lecture by Mrs. D. E. Meyers of Washington, D. C.

III. Scene—At the Monastery at Erfurth.

IV. Lecture continued.

V. Scene—Luther's great trial at the Diet at Worms.

VI. Lecture continued.

VII. Scene—Nuns and Novices leaving a convent.

VIII. Lecture concluded.

IX. Evening closes with a march. Then with flags flying and swords flashing all sing Luther's great battle hymn, "Ein Feste Burg."

EDITORIAL TROUBLE.

Col. Charles W. Wilson is editor of the Tuscola Review. Some weeks ago, in the interests of reform, he stated that Ed W. Calvin, a druggist of Newmar, had cost the county thousands of dollars in prosecutions for violations of the liquor law. In last week's paper the editor declared that Calvin had to mortgage his property in order to pay his fines. No sooner was the paper out than Druggist Calvin sought Editor Wilson, and proceeded to Tuscola, where he called upon the man of ink. In the encounter that followed the druggist severely pounded the editor, showing that in hands entirely great the fist is mightier than the pen. Calvin paid \$10 fine and left for Newman, rejoicing in his inquiry. Editor Wilson is in bed with a broken nose and two black eyes. Such is life among the rural press.

ANNIE OAKLEY
THE WORLD'S GREATEST LADY RIFLE SHOT USES AND RECOMMENDS

Newbro's Herpicide

The Original Remedy that "kills the dandruff germ"

"Travelling as I do continuously, I have been troubled a great deal with dandruff and falling hair, and until I tried Herpicide I never found a remedy that was satisfactory.

"Herpicide is a delightful preparation that fulfills the claims made for it, and no lady's toilet is complete without it. I highly recommend it to my friends.

(Signed) ANNIE OAKLEY"

It is certainly significant that Miss Oakley, the celebrated rifle shot and theatrical star, who has travelled so extensively abroad, should choose Newbro's Herpicide as the most efficacious toilet remedy for the scalp. No one will doubt her opportunity to choose the best and those who have seen the natty and winsome Miss Oakley, will not doubt her power of discrimination in matters of this sort.

Newbro's Herpicide is a scientific germicide and prophylactic for the hair and scalp, it destroys the germ or microbe that causes dandruff, itching scalp and falling hair, after which the hair will grow as nature intended. Extraordinary results follow the use of Newbro's Herpicide.

If your hair is dull, brittle or lustreless, don't wait until it begins to fall, but save it with Newbro's Herpicide. In addition to its wonderful medicinal qualities, Newbro's Herpicide is the daintiest and most delightfully refreshing hair dressing available. The first application proves its goodness. Try it.

Herpicide contains no grease, it will not stain nor dye.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of dandruff it is a sure sign that these countless germs are at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

OWNERS MAKE REPLY

What the Anthracite Operators Have to Say to the U. M. W. Proposal.

IT IS ABSOLUTELY REJECTED

Their Own Proposition Defended as Eminently Proper.

Mitchell's Demand, They Say, Means an Expense of from \$6,000,000 to \$12,000,000 to the Public.

New York, April 28.—The anthracite mine operators, through their sub-committee of seven, at a meeting here drew up a reply to the latest proposition of the mine workers for an adjustment of the existing difference in the anthracite fields, in which they refuse to modify their position, heretofore announced. The operators call upon the miners to renew for a period of three years the award of the anthracite strike commission, or else to accept the operators' proposition that the strike commission arbitrate the question as to what changes, if any, shall be made in the scale of wages fixed by the commission in its original award. The miners have heretofore declined this offer.

Takes Issue with Mitchell.
Addressing President Mitchell and others of the miners' sub-committee the operators in their reply say: "We observe that you reject our proposition of arbitration by the strike commission. You speak of it as a suggestion that 'we first arbitrate to ascertain whether there is anything to arbitrate, and then restrict within narrow limits the scope of the investigation.' This statement of the proposition is erroneous. Our offer was to submit to the members of the strike commission the question whether any changes in conditions have occurred since the award of the commission requiring that the award should be so modified as to wages and adjustment of complaints, and, if so, how it should be changed."

Stands by the 1902 Award.
"You will observe, therefore, that your statement was decidedly inaccurate. This proposition was in accordance with the view which we have constantly urged—that the award of the commission should be deemed conclusive as to any facts or issues within its scope, and that any further arbitration should be supplementary to that award rather than a retrial of all such facts and issues. It is clear that this procedure would tend to dignify and strengthen the process of arbitration, rather than, as you suggest, 'bring it into disrepute and ridicule.' The latter result would follow if arbitration should never be regarded as final, but simply as a basis for further endless controversy."

WANTS A DEFINED DURATION
Remarks Upon the Question of Increased Cost of Production.

The operators object to the proposition that any agreement made "continue for a period to be mutually determined." They insist that the duration of the agreement should be agreed upon first, and that it should be for at least three years, and not expire during a presidential election year. With reference to the increase asked the operators say it seems to be asked on the presumption that wages in the anthracite mines are unduly low. The operators call attention to the fact that the anthracite commission declared that wages in that region were not unduly low even before the wages were advanced in accordance with that commission's award.

They add that it is a fact easily provable by state official reports that anthracite wages are much higher than bituminous wages, and call attention to the fact that bituminous coal is in competition with anthracite in the same market. Then they declare that the increase in wages would mean an increase in the cost to the public of anthracite of 36 cents a ton, with the sliding scale; that without the sliding scale it would mean an increase of cost of production amounting in the aggregate to \$6,100,000 a year, and that the operators could not afford to pay the increase as their profit—that of the largest companies—is less than 3 per cent., without interest or royalty.

Therefore, the operators say, they see no way of paying this \$6,100,000 "without imposing additional burdens upon the coal consuming public." Again referring to the increase of cost involved in the U. M. W. proposition the operators say that with the sliding scale, the aggregate increase will be \$12,000,000. Whatever increase of price there has been in anthracite in the market since 1902 has been, the operators say, absorbed by the increased wages granted by the strike commission, and that commission's decision has not been of financial benefit to the operators; consequently there has been no increase of profits upon which could be based a claim for increased wages.

County Officials Accused.
Denver, April 28.—George Ball, sheriff, and Perry M. Beney, treasurer, of Washington county, Colo., have been placed under arrest by the United States marshal, on a charge that while they were officials of the United States land office at Akron they certified falsely to land entries in the district controlled by the Akron land office.

DOWIE DOESN'T LOOK ROBUST

Not on the Grave's Edge, However—He Talks to an Interviewer of His Plans.

Chicago, April 28.—In a voice the firmness of which belied reports which have been in circulation for the past few days that he was practically on the verge of death John Alexander Dowie, in an interview lasting over an hour, went into a complete history of the troubles that have beset Zion City during the last few months. At the time of the interview Dowie was fully dressed and sitting at a table in his apartments. It was plainly evident, however, that he had either passed through a severe sickness or was a pretty sick man at the present time. He said he was only tired.

CONCESSION TO LABOR

Lumber Carriers Will Recognize the Mates' Union—Now Will the Lake Carriers Do the Same?

Detroit, April 28.—The mates' union known as the Lake Pilots' Protective association gained an important concession when the labor committee of the Lumber Carriers' association, which committee has final power in the matter as far as that association is concerned, decided to recognize the mates' union.

Although the action of the Lumber Carriers is regarded as significant the great objective of the mates is to secure recognition from the Lake Carriers' association, which controls most of the big ore and grain vessels that ply the great lakes, and which at its last annual meeting announced a decision not to employ union men as mates.

PROFESSOR IS SUSPECTED

Believed to Have Murdered His Wife and a Warrant Out for His Arrest.

Cambridge, Mass., April 28.—The Cambridge police have issued a warrant for the arrest of Erich Muenster, an instructor in German at Harvard university, on a charge of murdering his wife in this city about two weeks ago. It is alleged that Mrs. Muenster's death was caused by arsenic. The body was taken to Chicago on April 17, but the case was not made public until last evening.

Muenster was born in Germany. He formerly taught school in Chicago, and before coming to Harvard less than two years ago he was an instructor at the University of Kansas at Lawrence, Kan.

Methodist Women Object.

Minneapolis, April 28.—A protest has been sent to Representative Loren Fletcher, at Washington, by the Methodist Women's Home Missionary society of the Minneapolis district, against the bill which has been introduced in congress to take control of the native schools in Alaska from the bureau of education and put it into the hands of the governor.

Argument in the Crapsey Case.

Batavia, N. Y., April 28.—The interest in the heresy trial of Dr. Algernon S. Crapsey, of Rochester, has centered in the final argument. An unexpected feature was the reply of Dr. Crapsey to the original presentation. This was read by Representative Perkins, of counsel for the accused. It is the only time Crapsey has said anything in his own defense.

They Fear Mob Law at Beloit.

Janesville, Wis., April 28.—William Anderson, a barber from Beloit, Wis., is closely guarded in jail here, having been brought from Beloit because of officers feared mob violence. He is charged with a serious offense against his 12-year-old step-daughter.

New York's Insurance Laws.

Albany, N. Y., April 28.—All of the nine bills of the special insurance investigating committee are now state laws. Governor Higgins has signed the last bill.

NEWS FACTS IN OUTLINE

HOT TIME NEXT WEEK

State Assembly Will Thresh Out the Primary Bill on the House Floor.

Nobody Is To Be Barred

Even the Democrats Are "Assured of a Hearing"—"Insurgents" May Give Trouble.

Springfield, Ill., April 28.—Five members of the house were present when Speaker Schurteff called that body to order. Both of the senate primary bills were ordered to second reading without reference to committee, and the house adjourned until Monday afternoon at 5 o'clock. The action of Speaker Schurteff in permitting the bills to go to second reading means that they are to be fought out on the floor, and not strangled in committee. It will also give the house some material to work on pending the appearance of a bill from the primary election committee.

Why Need This Assurance.

Hearn, from the Democratic side of the house, had a conference with Speaker Schurteff and was assured that when the senate bills come up the Democrats will be given every opportunity to be heard. There is a rumor that the twenty-one insurgents in the house will join with the Democrats in a vote to concur with the senate's sine die adjournment resolution for May 5.

No New Trail for Dr. Nichols.

Springfield, Ill., April 28.—Judge Humphrey, in the United States district court, denied a motion for a new trial in the case of Dr. Charles A. Nichols and fined Nichols \$250 and costs, with imprisonment in jail until paid. Nichols will pay. The total will amount to \$1,700. Nichols is a prominent physician of Urbana, Ill., and was convicted by a jury of using the mails for a scheme to defraud Mrs. Susan Day, of Urbana.

Appointed by Governor Deneen.

Springfield, Ill., April 28.—Governor Deneen has appointed Charles H. Cushing, of Chicago, delegate to the national conference of Charities and Correction at Philadelphia on May 9.

Sends Money to San Francisco.

Springfield, Ill., April 28.—The grand council of the Illinois Royal Arcanum has appropriated \$2,000 for California sufferers.

PARDON FOR DAN KIPLEY?

Chicago Detective Who Killed a Man in a Woman's Apartment—Case Is Before the Board.

Springfield, Ill., April 28.—Dan Kiple's application for a pardon was heard by the state board of pardons at Joliet on April 17 last, and the board now has the case under advisement. E. A. Snively, secretary of the pardon board, said upon his return from Chicago, where he attended a meeting of the board, that a decision in the Kiple case probably will be rendered within thirty days.

Dan Kiple, who is a nephew of the late Chief of Police Kiple, of Chicago, is serving a sentence for the murder of a man named Hopkins. The slaying occurred in the apartments of a woman known to the police as "Diamond Lil." Kiple's pardon is urged upon the ground that Hopkins was a dangerous character and that the shooting was in self-defense.

Bank Officers Indicted.

Chicago, April 28.—Four officials of the defunct Bank of America have been indicted by the grand jury. They are charged with conspiracy to obtain a bank charter by fraud and with conspiracy to defraud stockholders, etc. They are: Abner Smith, president, ex-judge of the Cook county circuit court; Gustav F. Sorrow, vice president; Jerome V. Pierce, cashier, and Frank E. Creelman, director.

Found in a Pool of Blood.

Danville, Ill., April 28.—The dead body of Mrs. Moore, widow of a prominent meat packer, was found in a pool of blood on her bed room floor. A gash in her neck and other circumstances caused the authorities to suspect that she had been murdered. Surgeons who performed an autopsy, however, state that she died from hemorrhage of the brain.

She Will Not Be Fired.

Chicago, April 28.—In an arm chair in the center of the stenographers' room in the corporation counsel's office Miss Fanny Horan sits daily and reads novels. Assistant Corporation Counsel Hayne discharged her a week ago and removed her desk, but Miss Horan refuses to be ousted, alleging that she is a civil service employee.

Murphy Goes Up for Forty Years.

Mt. Carmel, Ill., April 28.—"Cam" Dodd, of Howell, Ind., who was with J. W. Murphy, March 1, when Murphy, while drunk, killed Ignatius Gillen, of Youngstown, O., and Frank Miller, of Cleveland, O., in this city, was acquitted. Judge Newlin sentenced Murphy to forty years in the penitentiary.

Robbers Appropriate \$3,000.

Marion, Ill., April 28.—Robbers cracked the safe of the Citizens' bank at Creal Springs, this county, and escaped by a bandcar over the Illinois Central railroad with \$3,000.

Woman Killed by a Train.

Galesburg, Ill., April 28.—A Burlington passenger train struck and almost instantly killed Mrs. Lucy Fennessy at Avon.

SCALY ECZEMA ALL OVER BODY

Eruptions Appeared on Chest, and Face and Neck Were All Broken Out—Scales and Crusts Formed—Iowa Lady Has Great Faith in Cuticura Remedies for Skin Diseases.

ANOTHER WONDERFUL CURE BY CUTICURA

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the lower limbs as far as the knees. I at first thought it was prickly heat. But soon scales or crusts formed where the breaking out was. Instead of going to a physician, I purchased a complete treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread I procured another supply of the Cuticura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Remedy, and do not know how much of the Soap or Ointment, as I always keep them with me; probably one half dozen of each.

"I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment of eczema on an infant belonging to one of our neighbors. The parent took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cuticura Remedies her face was terribly disfigured with sores, but she was entirely cured. For I saw the same child at the age of five years, and her mother told me the eczema had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Liscomb, Iowa, Oct. 1, 1905."

A SILLY TOY.

The Way the Toothbrush Was at First Regarded.

Colonial diaries and letters make it plain that our unfortunate ancestors suffered much from jumping toothaches, swelled faces and the early loss or forcible extraction of teeth which at a later period might have been saved to render their owners many years of further service. No wonder, since the care of the teeth was little understood, and that little often but negligently practiced.

Toothpicks were known; the toothbrush was not, although rough substitutes were employed, made of flattened sticks, split and pounded at one end to a stiff, fibrous fringe. Toothbrushes when first introduced were regarded as by no means important accessories to the toilet, but rather as minor luxuries and suitable for women only.

The diary of a London merchant trading to the colonies has this entry: "Bought a Toothbrush for my wife, which, used together with salte water, very strong, and a washie of Herbs, she is told will keep her Teeth from falling out or getting hollowe. The salte and Herbs may well prove strengthening to her Gummies which are tender, but for the brush it seems but a silly Toy, hardly like to ware the worth of its price and scarce cleanley save when new. But she must have it, being a new thing late from France."

In the famous collection of the letters of the Verney family, as well, the toothbrush is referred to as "an elegant trifle, now used by the ladies of Paris."

But when Sally Annis, a colonial belle, wrote of it to her sister she had, like the London merchant's wife, good hopes of its proving of more than trifling value. Her seafaring father had just brought her one, along with other gifts.

"Besides these, and ye smalle combe, he brt. me a new mouth-brush made of eyvory," she wrote, "the back parte inlayed very pretty with silver; and ye bristles long and stiffe and sett very firme; wch he is assured will help me of my Tooth Akes; wch, you will guess deer Judy I do pray it may."—*Youth's Companion*.

FOR THE HOUSEWIFE.

Melted butter will not make a good cake.

Yeast should be white, dry and close grained.

The colder eggs are the quicker they will froth.

To make good pastry the ingredients must be ice cold.

Nutmegs should be grated at the blossom end first.

A brush dipped in salt water should be used in cleaning bamboo furniture.

Good macaroni is of a yellowish tint, does not break readily in cooking and swells to two or three times its bulk.

A simple and very efficient disinfectant to pour down a sink is a small quantity of charcoal mixed with water.

Warm bread and cake should be cut with a knife the blade of which has been heated by standing it in boiling water.

Mica Mining.

Mica mining is one of the greatest industries in North Carolina. Mica is found in all sorts of blocks of various thicknesses and shapes and can be split and resplit almost ad infinitum or until it becomes the thin, flexible wafer of commerce. The material is by nature imbedded or scattered through the feldspar in masses large or small, close together or far apart, and is blasted from the rocks by means of dynamite, the purer veins being found between walls of slate. From the mines it is taken to the shops, where it is split into thin sheets, trimmed into regular forms and made ready for the market, the price varying with the size and color of the sheets. The average size is about 4 by 6, though rare sheets of 24 by 18 inches are sometimes found.

Napoleon's Bad Handwriting.

M. Houssaye attributes the muddle over orders at Waterloo to Napoleon's execrable handwriting. This was the opinion of the writing master of Alexandre Dumas: "The emperor never lost a battle except by his bad writing. His officers could never make out what he meant. Remember this, Alexandre, and make your down strokes heavy and your up strokes light." Grouchy declares that during the battle of Waterloo he could not make out whether Napoleon wrote "bataille gagnée" or "bataille engagée," and he conjecturally read "bataille gained."—Andrew Lang in *London Post*.

The Freaks of Fate.

Here is a unique memorial notice from a Georgia exchange: "Once he was nearly swallowed by an earthquake and shortly afterward was blown nearly a quarter of a mile by a hurricane, but he triumphed over all these afflictions, only to be kicked out of life by a mule that had a mortgage on it and was blind in one eye."—*Atlanta Constitution*.

Other Objections.

"Gladly would I die for you!" Her look of hauteur was maintained despite this plea.

"You are in error," she replied coldly, "if you think the color of your hair constitutes my chief objection to you."

The good night was brief and soon—Philadelphia Ledger.

A Big Difference.

She—How much do you earn a year? He—About \$2,000.

"But we can't live on that!"

"You asked me how much I earned. I make about \$20,000."—*Life*.

DON'T OVERLOOK THIS

A Careful Perusal Will Prove Its Value to Every Dixon Reader.

The average man is a doubter, and there is little wonder that this is so. Misrepresentations make people skeptics. Now-a-days the public asks for better evidence than the testimony of strangers. Here is proof which should convince every Dixon reader.

Mrs. C. Spiller, of 1203 Seventh St., says: "When a sufferer from severe pain across the loins which refuses to leave with ordinary treatment, at last manages to radically dispose of it by the use of a medicine, that sufferer is only too pleased to let the public know the means employed to get relief. I went to Leake's drug store for Doan's Kidney Pills and took the remedy. It cured me. I am only too pleased to endorse Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

What good does it do you to eat 1 your stomach fails to digest the food? None. It does you harm—causes belching, sour stomach, flatulence, etc. When the stomach fails a little Kodol Dyspepsia Cure after each meal will digest what you eat and make the stomach sweet. Rowland Bros.

by Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time it will prevent attack of pneumonia. Refuse substitutes. Rowland Bros.

Don't tie a cough or a cold up your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is different from all other cough syrups. It is better. It opens the bowels—expels all cold from the system, relieves coughs, colds, croup, whooping cough, etc. An ideal remedy for young and old. Children like it. Sold by Rowland Bros.

Clears the Complexion.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary cathartics, as it does not irritate the stomach and bowels. Rowland Bros.

Living indoors so much during the winter months creates a sort of a stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver stomach and bowels, and give the blood a chance to purify itself. They relieve headache, sallow complexion, etc. Sold by Rowland Bros.

It is not difficult to relieve blind, bleeding, itching or protruding piles with Manzan, the great pile remedy. It is put up in collapsible tubes with nozzle and may be introduced and applied at the seat of the trouble. Stops pain instantly. Sold by Rowland Bros.

SLICK ONE IS ROTHSCHILD

He Evidently Doesn't Intend to Let Anything Get Away If He Can Help It.

London, April 28.—The suit begun by a picture dealer named Rothschild against Charles M. Schwab, of New York, for breach of contract, was adjourned after some remarkable evidence had been given. The plaintiff in the course of his cross-examination admitted that he had Constable's picture "Dedham Lock" on "sale or on return" for \$4,250.

He first asked Schwab \$25,000 and then \$20,000 for the picture. Ultimately Schwab offered \$15,000, which was accepted. Thereupon the plaintiff admitted that he had tried to get the owners of the picture to reduce the price to \$3,250. The plaintiff described his letters to Schwab as "trade bluff."

TURK MUST CLIMB DOWN

John Bull Won't Have Him Nosing Around in the Territory of Egypt.

London, April 28.—The cabinet has leniently considered the dispute with Turkey regarding the Tarbuh boundary, and has resolved to dispatch the second-class cruiser Minerva to El Arish, with instructions to investigate the report that the Turks have removed the frontier pillars at Rafanear and El Arish.

The negotiations continue with Constantinople, but the cabinet meeting showed that the British government is unalterably determined to enforce the withdrawal of the Turkish troops from Egyptian territory. A dispatch from Port Said to The Daily Mail reports that Turkish troops occupied El Arish, on the Egyptian-Syrian frontier.

Winners at the Olympic Games.

Athens, April 28.—The winners at the Olympic games yesterday were as follows: Athletes from the United States won the first heat in the 100-metre race, first heat in the 1,500 metres, running long jump, first, second, fifth and sixth heats in the 400 metres race, throwing the weight. British athletes won the second heat in the 1,500 metres race, third and fourth heats in the 400 metres, Greece won the stone-throw and Austria won the single-hand weight-lift.

THE MOTHER ANTELOPE.

Wonderful Manner in Which She Provides For Her Young.

The manner in which the mother antelope protects her young until they are old and strong enough to join the full grown bands in their wanderings is an interesting and wonderful instance of nature's providence. These beautiful creatures live in an open country infested by all kinds of enemies and especially prowled over by the coyote, the gray wolf and the timber wolf, which subsist upon the young of all kinds of animals, yet the mother can easily protect her babies from the fiercest of these marauders. The enemy most dreaded is the soaring eagle.

There is a variety of cactus, a prickly plant which grows in great abundance all over the western plains, which furnishes her the means for this protection. Horses, cattle, buffalo and, in fact, all animals know the danger of treading on this plant. It grows in large patches some four or six inches in height above the ground and forms a thick mat varying in breadth from the size of the top of a man's hat to many feet. It is in the center of one of these patches that the female antelope prepares a place of safety for her young. The thorns of this cactus, while very poisonous and terribly painful to every other animal, for some reason are almost harmless to the antelope. The cactus may lacerate her legs, making them bleed freely, but neither the stickers nor their poison remains, while other animals seldom bleed, but retain the poisonous stickers in their wounds until they become malignant sores, causing excessive swelling of the limbs and very great and long continued suffering.

When the antelope has selected her patch of cactus, backing away a few feet, she will make a running jump, bounding high in the air and alighting in the middle of the patch, with all four feet close together, the hoofs pointing downward. Then, springing out again and repeating this operation until she has chopped the roots of the cactus plant to pieces, she loosens and clears a space large enough for standing room. She then will enlarge it by pawing and digging with her sharp hoofs. Here she gives birth to her young in undisturbed security, knowing that she can leave them in comparative safety during the day and return to them at night to give them suck. Should it be in a locality where eagles abound, however, the mother does not venture far away, as the soaring eagle often swoops down on the young, taking them away if she is not there to do battle for their lives.—*H. H. Cross in Century*.

Lincoln and the Old Virginian.

Washington was a strong man and a famous wrestler. He was never thrown, which meant much, for wrestling was a favorite amusement with Virginians, many of whom were as nearly invincible as the ancient Greeks. Lincoln, too, could boast classic excellence in the same sport. "It is a curious thing," Lincoln said, "when Washington's prowess was first brought to his attention—"It is a curious thing, but that is just precisely my record when I was a youth. I could outlift any man in Illinois, and I never was thrown. If George was round now, I should be pleased to have a tussle with him, and I rather believe that one of the plain people of Illinois would be able to keep up his end against the old Virginian."

Matrimony and Patience.

Matrimony and patience! It is not always a perfect combination, is it? In South Africa the savage tribes have a peculiar ceremony which they put the matrimonial candidate through previous to his entering the holy state. His hands are tied up in a bag containing five ants for two hours. If he bears unmoved the tortures of their stings he is considered qualified to cope with the nagging and daily fret and fret of married life. Such a man would make an admirable husband. He would not be upset by the thoughts of a spring bonnet or grow irritable every time the steak was overdone. The idea of having a patience trial for those about to marry is one that civilized people might adopt.

The Largest Described Snake.

Speke, in his narrative of the journey to the source of the Nile, describes the largest snake that has ever been seen by man. "I shuddered," he says, "as I looked upon the effects of his tremendous dying strength. For yards around where he lay grass, bushes and saplings—in fact, everything except full grown trees—were cut clean off as if they had been trimmed with an immense scythe. The monster when measured was 51 feet and 2 1/2 inches in extreme length, while around the thickest portions of its body the girth was nearly three feet."

Labor.

If it were not for labor men could neither eat so much nor relish so pleasantly nor sleep so soundly nor be so healthful nor so useful, so strong nor so patient, so noble or so untempted.—Jeremy Taylor.

GAS WELL AT OHIO HAS A STRONG FLOW
Vein Struck With Pressure of Forty Pounds at a Depth of But 300 Feet.

The forty pound pressure gas vein struck at a depth of 300 feet last Thursday afternoon by the Illinois Gas and Oil company has the greatest pressure and the largest volume of any vein ever struck in this locality. A test of the volume showed 1,400,000 cubic feet of gas in twenty-four hours. Some idea of what this means can be gained when we take into consideration that it would require only 75,000 cubic feet of gas per day to furnish steam enough to run the Ohio electric light plant and pump the city water.

To fill the space at the bottom of the hole, caused by the blowing out of a lot of sand and gravel before the gas could be gotten under control when it was first struck, a quantity of clean sand and gravel was put into the well last Saturday. This reduced the pressure to thirty-five pounds, but it has since increased to thirty-nine pounds.

Mr. DeStiger, the manager for the company, intends to commence work on another hole as soon as he can hear from other members of the company and a location for the new well is selected.

In drilling the well just completed it was struck at forty-five feet from the surface and another vein at 265 feet, which indicated a strong pressure, but owing to it being just on the upper edge of an eighteen foot water vein the hole was continued through the water vein until a depth of 300 feet was attained, when a forty pound pressure vein was struck. It is thought by many that at a greater depth a vein of much more pressure could be tapped and perhaps oil could be obtained. It is the intention of the company, after drilling a number of shallow wells, to prospect at a greater depth.—Bureau County Republican.

BAPTIST YOUNG PEOPLE.

The Baptist Young People's union will hold its first regular devotional session Sunday evening at 6:45 in the church parlors. This meeting will be in charge of the pastor, Rev. Billings, and it is desired that there be a large attendance of the young people of the congregation and their friends. A cordial invitation is extended to all young people to be present at these meetings. The chairman of the devotional committee especially desires that all members of this committee be present as there will be a meeting of the committee for a few moments at the close of the young people's service.

PROBATE OFFICERS TO MEET.

The association of county and probate judges of Illinois will hold a meeting in the supreme court room, Springfield, Wednesday and Thursday, May 23 and 24, 1906.

Judge Robert H. Scott will attend the meeting. Among the many speakers are Judges Julian Mack and A. N. Carter of Cook county. On Wednesday evening a banquet will be given at the Leland hotel. Justice John H. Hand of the Illinois supreme court, and William H. Stead, attorney general, will deliver addresses.
